

ALLEGATO A – da affiggere presso il Dipartimento sede degli esami e da pubblicare online

Il significato delle colonne A.1-A.3, definito nel verbale primo in cui sono stabiliti i criteri di valutazione dei progetti, è di seguito riportato:

A.1) Originalità del progetto;

A.2) Rigore metodologico;

A.3) Conoscenza della letteratura scientifica di riferimento.

| N. | N. Pratica | Cognome e nome                       | Tematica (Green/Innovativa)  | A.1 max 20 punti | A.2 max 5 punti | A.3 max 5 punti | TOTALE Max 30 punti | Ammesso (Si/No) |
|----|------------|--------------------------------------|--|------------------|-----------------|-----------------|---------------------|-----------------|
| 1  | 2742225    | Yousuf Farhan                        | Sviluppo di nuovi processi di sintesi e deposizioni di Perovskiti per utilizzo in applicazioni fotovoltaiche                           | 15               | 4               | 4               | 23                  | Si              |
