focus on retention of
healthcare workers

SHOULD I STAY OR SHOULD I GO?

Why healthcare workers intend to quit A webinar from Project METEOR

Hospitals and healthcare providers across the European Union are struggling to retain workers. Project METEOR aims to understand what makes physicians and nurses quit, and propose solutions that will encourage them to stay.

More than 2,000 physicians and nurses from Belgium, Italy, the Netherlands and Poland took part in the

METEOR online survey, sharing their opinions about working conditions, job satisfaction, workloads, stress, fatigue, burnout and intentions to leave.

Join our webinar to find out more about what physicians and nurses think about their jobs, what bothers them and why they are thinking of quitting.

The online event will take place on
28 November, 2022 from 17.00 to 18.30 CET

SPEAKERS:

Lode Godderis, Olivia Lavreysen and Anke Boone
(KU Leuven, Belgium):
Objectives and next steps of Project METEOR

Neeltje de Vries (Spaarne Gasthuis, the Netherlands):
What are the main factors influencing job retention?
Evidence from the literature
